

TILE PATTERNS

Wall panels are the perfect solution to completing your bathroom ensemble. Cultured marble is protected by a gelcoat finish forming a non-porous sanitary surface that resists stains and mildew. They are easy to clean and maintain due to the lack of grout. We offer solid sheets that are plain as well as scored panels that look like tile. We have several tile patterns to choose from.

VERTICAL TILE PATTERN

Panels are manufactured to each line to achieve desired length. Panels are 5/16" thick.

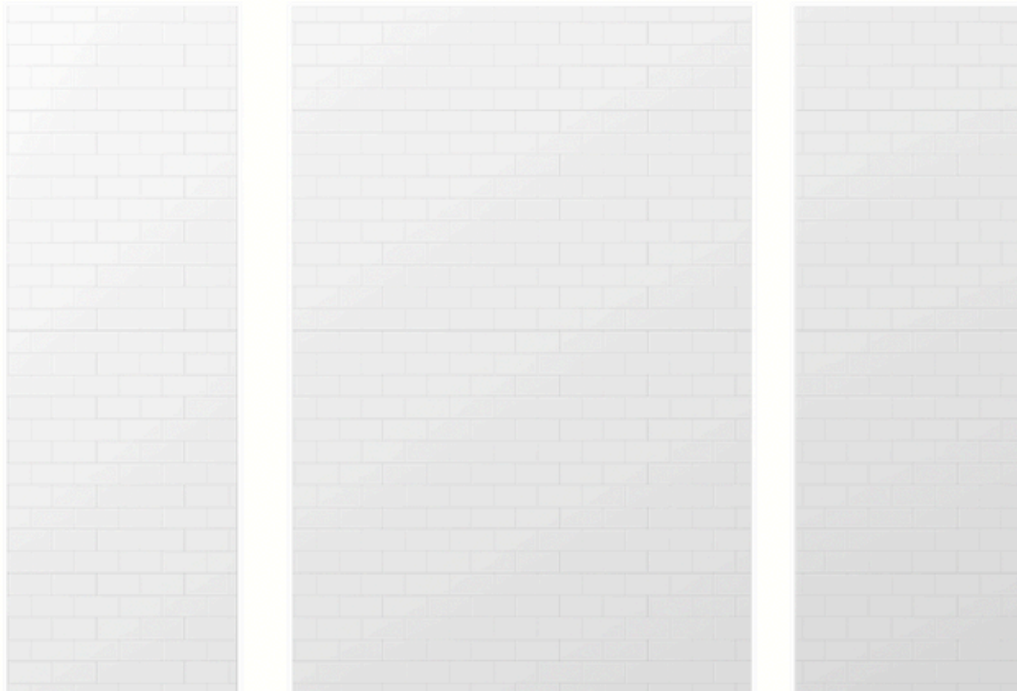

- Pattern: 6" x 24"
- Max Size: 60" x 95"
